

Project – Bromley College – LDD Centre Refurbishment – Completed May 2013

Michael Jones & Associates LLP were appointed to carry out the Mechanical and Electrical Design for the refurbishment of the existing LDD Centre at the College which included the construction of a new infill Restaurant Space and a new Performance Space. The works were split into two phases with the enabling works contract being the stripping out of the existing building areas and making safe of the M&E Services installations and the second phase the refurbishment of the spaces and the construction of new. The refurbishment works contract was carried out with a fast track programme to complete the project within the College's required timescales and included the refurbishment of Kitchens, Classrooms, ICT areas and Workshops. The project was completed in early May 2013 and below we have indicated before and after photographs for some of the areas.
