

**Latest News**

As another year passes and 2018 looks on we can look back at what a mixed year it has been in the UK with elections, Brexit and the continuation of Dale's extension project! This year has seen the completion of projects at Brooklands College, Camden Market, Viewpoint One Bracknell and many others. We are looking forward to a great year in 2018 with many projects in the early stages of design or already on site. In November we took on a new member of staff to help us maintain the good service we are known for and as it turns out Paul and Colin went to College with him in their youth! So we welcome Paul Stroud to our team and look forward to introducing him to you when appropriate.

The motorcycling boys had a weekend trip away in September to the World War 1 and 2 sites of Ypres, Vimy Ridge and La Coupole near St Omer. This involved taking the small and winding roads of France cross country between the sites and witnessing the Last Post Ceremony at the Menin Gate in Ypres. All went well with only one oil seal failure and Colin's classic bike consuming a litre of oil during the journey!

So it is now time for an update on Dale's extension which, most of you will know, has been in construction for more than 5 years and apparently is nearly finished. So we are sure Mrs Price is looking for a new house as we put pen to paper! You will also be amazed, as we were, that he found time to sort out both motorcycle projects, although he would still like time to "tinker" (read "finish") them to his satisfaction.

We would like to confirm that the office will be closed from noon on the 22nd December 2017 until 9am on the 2nd January 2018 and would also like to wish a **Happy Christmas and Prosperous New Year to all who have supported us throughout the years from all at MJA**

**Recent & Current Projects**

**Project 41: Great Pulteney Street - Ongoing, due to be completed Summer 2018; Client - Sir Richard Sutton Limited; Architect - Rolfe Judd; Contractor - Hutton Construction Ltd**
