Christmas 2018

Wow, didn't this year just fly past. Yet another year disappears with a wide range of projects being undertaken and our favourite subject, Dale's extension, STILL in the mix! This year we have seen the moving on of Geoff from the Mechanical department, who is now working independently, and the joining of Steve into the Electrical department this November. We welcome Steve Deverson to MJA and hope he enjoys being part of our very busy M&E Consultancy.

This year the motorcycling boys didn't manage to get away, as it was Dale's turn to organise, so what do you expect?!! We did manage to go on a track day where Dale assures us he is still the fastest with a recorded speed in his usual range of 160mph!

Dales building works have again perplexed us by still progressing slowly with a new kitchen being fitted in the record time of 8 weeks, which isn't bad for a 2 week project. We think more of the kitchen has been removed and reinstalled than was installed in the first place! Always time to buy a new house Dale!

Colin managed to fall off a ladder and in the process managed to get a 150mm long cut through the length of the palm of his hand, but all is healing well now and had healed enough for him to go on his first track day.

This year the team building involved a piece of culture with a visit to the Tate Modern on the South Bank. The day was a typical March unpredictable day but views from the viewing gallery were fantastic across the London skyline.

We would like to confirm that the office will be closed from 17:30 on Friday 21st December 2018 until 9am on the 2nd January 2019 and would like to wish a Happy Christmas and a Prosperous New Year to all who have supported us throughout the years, from all at MJA.

Recent & Current Projects

Project University of Roehampton - Due to complete Summer 2019 ; Client - University of Roehampton; Project Manager—Gardiner & Theobald; Architect - Rivington Street Studio Architects; Contractor - VolkerFitzpatrick

Michael Jones & Associates LLP were appointed as M&E Building Services Consultants for Phase 1 of the refurbishment of the old Library building into a new Media, Communications and Language Building. This includes a new Film Studio, Cinema and Editing Suites along with Seminar Rooms and Computer Suites. This is a fast track refurbishment project on a tight programme and budget.

Project: Claremont Fan Court School - Ongoing, due to Complete Spring 2019; Client—Claremont Fan Court School; Project Manager—Richardson Greenyer Ltd; Architect—Fletcher Crane Architects; Contractor—Lifebuild

Michael Jones & Associates LLP are appointed as M&E Building Services Consultants for a New Science & Technology Building, a New Workshop Building and the refurbishment of an existing Generator House in a phased project. The Generator House and New Workshop Building are just being handed over and the main building is continuing for a handover this coming Spring.

Other News

During 2018, MJA have continued their ongoing role as Master Engineer with the Royal Automobile Club, supporting projects at both Woodcote Park and Pall Mall. This has included a range of plant replacement, refurbishment and new-build projects, infrastructure and ongoing consultancy services. We have also been involved at The University for the Creative Arts, with involvement at 3 out of 4 of their campus sites, Epsom, Farnham & Canterbury, where we were involved with summer works projects at Epsom, a plant replacement project at Farnham, and design/tendering of a summer 2019 project at Canterbury.
